Children With Imprisoned Parents Sit For Finals

Sitting for finals is one of the greatest achievements for children at Wells of Hope, especially during these unprecedented times of COVID-19. Through your continued support, 24 children did their finals; 10 children sat for senior four examinations (Uganda Certificate of Examination) and 14 children sat for

Primary Leaving Examinations. We are glad that the children are more resilient, confident and are determined to achieve their dreams. They would not be able to reach this far without your love and care. We thank all our sponsors!

Pr Erick Shepherd Nsubuga conducting discipleship classes

Last month, Pr Erick Nsubuga coordinated door to door evangelism. The Lifegroups are progressing. Richard, one of the brethren appreciates and glorifies the Lord for his lifegroup; during one of their meetings he shared that he has learnt to read the bible. The lifegroup helps him keep in the word of God throughout the week and his spiritual life is growing. During Sunday services, brethren studied about a servanthood heart and who God is.

Our Publications

Labor exportation is undeniably one of the most sought-after source of income for Ugandans at the moment; and this greatly affects children. Wells of Hope has conducted a pilot research to assess the impact of labor migration to the children in Uganda. [Click here](#) to read our report called **Children in the Dark** which we believe is a voice for these children. It has recommendations we hope can be considered to increase positive outcomes for these children.
